

Donate your used digital device for empowerment

DigiDonate aims to procure used digital devices and channelise those re-conditioned laptops, tablets, and old mobile phones to those in need and bridge the digital divide gaps.

WHY DONATE?

YOUR OLD DIGITAL DEVICE

WHAT YOU CAN DONATE?

- Any old laptop that is in working condition with a power cable.
- Old mobile phone in working condition with a charger.
- Old electronic tablet in working condition with a charger.
- Old computer with working CPU and UPS.
- Old running colour-black white printers, digital camera, and any other devices

PROCESS FOR DONATION

For offline donation, please download the donation form at <http://nedfindia.org> & fill in the details and send us along with the donated item/s to designated DigiDonate Centre / Station.

PROCESS FOR DONATION

- We cannot accept items that are broken, damaged or not in a usable condition.
- We cannot accept items that do not have a power cable or have damaged or frayed power cable.
- All donated items will be processed, repaired, recycled and reused as per safety standards of health and environmental laws and protocols.
- The electronic items that are donated will not be returned back to you, as they are donations in good faith.
- DigiDonate is a not-for profit initiative
- No child labour will be engaged or employed to process, repair or recycled old digital devices.

- + Your old device will help school going children to access online learning
- + Information access for adolescents and youths
- + Micro and small entrepreneurs to promote and market products online
- + Women will get access to information and online services
- + Will give job and employment for youths to repair and recycle your old device
- + Can help youths to start small digital service shops for livelihood

HOW YOU WILL DONATE?

- Please clean your electronic item with alcohol gel.
- Please ensure the laptop is fully turned off (not in sleep mode).
- Please save, download, and delete all your private or important data, information before you donate your items.
- Pack your device properly.
- Call and visit the nearest DigiDonate Collection Point and submit the device.
- Collect donation receipt.
- Follow Covid-19 safety measures / tips.
